CHIEF AUDITOR, MANAGEMENT AUDIT SERVICES

SUBJECT: STATUS OF OPEN AUDIT RECOMMENDATIONS AS OF
DECEMBER 31, 2007

ISSUE

At the March 2005 Executive Management and Audit Committee meeting, the committee requested that the status of all open audit recommendations be reported monthly. This includes audits performed by Management Audit Services (MAS) and, in compliance with MAS 1, external audits performed by outside auditors.

DISCUSSION

MAS' monthly audit follow-up report includes all open audit recommendations related to findings reported by Financial Audit, Information Technology (IT) Audit, Operational Audit, and outside auditors; statistics on the number of recommendations closed or completed since the last report; and a summary of audit activities in Contract Audit and Grant Audit.

During the month of December, MAS issued one report: Continuity of Operations Plan (07-OPS-006) which contained three recommendations that are included in attachment A, item 36.

Four of the open recommendations were closed or completed during December. Eleven recommendations have a status of "under review." This indicates that the audit client has submitted documentation that is being analyzed to verify that all of the recommended actions are complete. We are actively working with staff to close each recommendation as quickly as possible. The total open recommendations as of December 31, 2007 are included in Attachment A.

The following table summarizes the follow-up activity for audit recommendations during December 2007.

Table 1

Contract Audit conducts audits related to pre-awards, change orders, and incurred costs, as well as providing support for claims, contract closeouts and contract related litigation. Grant Audit conducts closeout audits of projects funded by the Call-for-Projects.

During December 2007, 73 contract audit reports remain open pending the results of negotiations. Grant Audit issued three final reports and had one audit report in the draft audit stage.

NEXT STEPS

Management Audit Services will provide the next monthly status report for the period ending December 31, 2007.

21	06-ACC-004	12/5/2006	MAS	Real Estate Controls	Chief Real Property Management & Development	1	Real Estate Department (RED) should prioritize and complete the task of populating the real estate database. Both RED and ITS should complete the work needed within RED's estimated 12 months to fully implement RPMIS by the end of next fiscal year.	6/30/2008		
22	07-MGLEE-001	1/1/2007	MAS	MGLEE LA Crematorium Site Environ. Process Review	Chief Planning Officer; Chief Capital Management Officer	1	LACMTA policy for major projects should emphasize the importance of continuity in the environmental review from conceptuality through the implementation of long-range projects. As continuity of staff and consultants cannot be insured over the duration of many years, it is important that applying the tiering process allowed by NEPA/CEQA that all prior project related documents are made available by LACMTA staff overseeing the process and reviewed by consultants charged with evaluating cultural resources.	1/31/2008		
23	07-MGLEE-001	1/1/2007	MAS	MGLEE LA Crematorium Site Environ. Process Review	Chief Planning Officer; Chief Capital Management Officer	2	LACMTA should provide training in the Section 106 process to all staff responsible for the review of cultural resource management documents required under NEPA/CEQA. Further, the consultants preparing the environmental documents should meet the secretary of Interior's Standards and Guidelines for cultural resources consultants.	7/31/2009		
24	07-MGLEE-001	1/1/2007	MAS	MGLEE LA Crematorium Site Environ. Process Review	Chief Planning Officer; Chief Capital Management Officer	3	When the Area of Potential Effect changes, a thorough review of all pertinent environmental documents must be completed in order to determine the potential for previously unidentified effects to significant cultural resources and/or environmental impacts.	2/29/2008		
25	07-MGLEE-001	1/1/2007	MAS	MGLEE LA Crematorium Site Environ. Process Review	Chief Planning Officer; Chief Capital Management Officer	4	When property must be acquired, a full investigation of prior land use should be undertaken. Policy should clearly identify which LACMTA department is responsible for investigating prior land use. Where sensitive land use such as cemeteries or related facilities are identified, limited field investigation at a minimum should be conducted.	1/31/2008		
26	07-MGLEE-001	1/1/2007	MAS	MGLEE LA Crematorium Site Environ. Process Review	Chief Planning Officer; Chief Capital Management Officer	5	LACMTA should establish a policy that, when a cemetery lies adjacent to the project alignment, within a site development tract, or where property may be acquired, prior land use over time must be thoroughly investigated. The modern limits to a cemetery may not always reflect its actual boundaries. Historically, graves of indigents have been found outside the recognized limits of many early cemeteries.	1/31/2008
