**SUBJECT: MINOR ROUTE MODIFICATIONS IMPLEMENTED
DURING THE QUARTER ENDING SEPTEMBER 2000**

ISSUE

This is the July-September 2000 quarterly report of minor service modifications implemented by staff in accordance with a policy adopted by the Board of Directors in March 1996. The adopted policy delegates authority for minor route changes not requiring a public hearing (e.g., revised turnaround loops, layover zones, minor re-routings) to staff. The cumulative impact (both cost increases and decreases) of such changes cannot exceed \$100,000 annually in added cost, and a report to the Board of Directors is to be submitted quarterly. Board members may request that any item described in this report be brought forward for discussion at a future Board meeting.

BACKGROUND

During the period of July through September 2000, MTA staff implemented 1 minor route change covered by the adopted policy involving MTA Line 183. The change involves modification to route. The change is described and illustrated in detail in the Attachment.

The modification was made to respond to changes in the operating environment and to enhance passenger convenience. The modification implemented during this period was cost neutral. There is no cumulative cost impact for the period between July 1, 2000 and September 30, 2000.
