SUBJECT: Preliminary Discussions with Local & Regional Agencies Regarding the Potential to Convert Buses from Methanol to Diesel

This is to inform the Board of Directors that MTA staff has begun exploratory discussions with local and regional government and regulatory agencies. The purpose of these preliminary discussions will be to determine the range of costs to implement such a conversion, the legal and environmental impacts which would result, and other significant benefits/deterrents.

The information gathered will form the basis for MTA staff to conduct a feasibility assessment of this issue.

We will keep the Board of Directors apprised of our investigation and findings.
