TO: **BOARD OF DIRECTORS**

FROM: **JULIAN BURKE** 

SUBJECT: **MOS-3 FULL FUNDING GRANT AGREEMENT**

In a meeting in early June 1999, and again in a letter on July 15, 1999, the Federal Transit Administration Administrator Gordon Linton called into question the continuing inclusion of the East Side and Mid-City Metro Rail Red Line Projects in the MOS-3 Full Funding Grant Agreement (FFGA). Mr. Linton was then of the view that, since the East Side and Mid-City projects were still in a state of suspension, those projects no longer had a New Starts funding commitment from the FTA.

Through the successful efforts of our elected representatives in Washington, our lobbyists, and staff, the Administrator now has agreed that the FTA will recognize the past commitment for the East Side and Mid-City fixed guide-way projects. See the attached letter to me from Mr. Linton dated October 28, 1999.
