SUBJECT: QUARTERLY REPORT - ACCESSIBLE SERVICE
COMPLIANCE

ISSUE

This quarter report details the service provided to the mobility-impaired bus patrons using MTA fixed route service, including service provided by MTA contracted bus services covering October 1, 2002, through December 31, 2002. The Authority contracts with CDSNet, Inc. (CDSNet), a third party contractor, to monitor and report ADA compliance according to the provisions of the settlement agreement with the Americans Civil Liberties Union (ACLU) regarding service provided to mobility-impaired bus patrons.

During this quarter, MTA recorded boarding 36,231 mobility-impaired customers. Also recorded were 588 pass-ups when the first available bus did not provide transportation due to either equipment failure or other operational problems. These pass-ups exclude those situations when customers were not boarded because the bus was full or otherwise lacked capacity, as defined in paragraph 2, page 9, lines 4-5 of the settlement agreement.

The MTA provided records to the ACLU for the quarter pertaining to 225,769 bus assignments from both the MTA divisions and our MTA contracted bus services.

The CDSNet results for the quarter are reflected on Attachment 1.

The compliance percentages resulting from observations made by CDSNet exceeded minimum expectations and therefore did not result in any fines.

BACKGROUND

In January of 1998, the ACLU, on behalf of Larry Beauchamp, Stephen Koonz, Rick Perkins, LaJuana Drew Perkins, and Robert Wargo, mobility-impaired patrons, filed a class action lawsuit against the Authority to improve the standards for maintenance and operation of wheelchair lifts and other ADA-related devices onboard buses operated by MTA and its contractors. The MTA Board approved the Injunctive Settlement Agreement on August 9, 2000, with the Federal Court issuing the agreement on January 10, 2001. The agreement establishes the level of maintenance and operation of ADA-related equipment such as wheelchair lifts, ramps, lift-doors, and securement devices and standards for on-street performance.

NEXT STEPS

This report details the results of the seventh quarter of mandated ADA Compliance monitoring. The MTA has three remaining quarters in the agreement, which is scheduled to terminate on October 10, 2003, provided that all terms and conditions of the agreement are met by the end of the term. The next board box item detailing compliance percentages and service provided to the mobility-impaired community is scheduled to be released by May 30, 2003, and will cover the period of January 1, 2003, through March 31, 2003.

The data received from CDSNet is carefully reviewed and investigated by the ADA Compliance Team in Transit Operations. This team identifies Operators who are complying with ADA law and MTA policies and performed well in undercover observations made by CDSNet. The team also identifies Operators that were reportedly not following MTA policies and further investigates and initiates disciplinary action where applicable to enforce ADA law and MTA policies.
