Interoffice Memo

Date April 26, 2005

To Board of Directors

From Roger Snoble
Chief Executive Officer 

Subject M3 Tiger Team Implementation

In light of the current status of the M3 project, I have created a new tiger team to oversee it. This approach has been successful in the past at the agency for other projects. The team will take charge of the project immediately and be in place until its completion. Bruce Feerer, Deputy Executive Officer in Procurement will lead this team, you may recall that he led the team on the P2000 rail cars a couple of years ago. Bruce will be reporting directly to me and John Catoe on all matters regarding the completion of the project. Additionally, the tiger team will have the resources of the Audit team currently working on the project.

Members of the team include:

Elizabeth Bennett, ITS
Dave Kubicek, Rail
Ted Montoya, Materiel
John Roberts, Bus Operations
Milo Victoria, Regional Rebuild Center

This team will be responsible for completing the project within the scope, available resources and time frames. Implementation of the team will ensure the necessary oversight and action needed to conclude the project. If you have any questions on this matter please do not hesitate to contact me.
