TO: BOARD OF DIRECTORS

THROUGH: ROGER SNOBLE 
CHIEF EXECUTIVE OFFICER

FROM: RUTHE HOLDEN 
MANAGING DIRECTOR, MANAGEMENT AUDIT SERVICES

SUBJECT: STATUS OF OPEN AUDIT RECOMMENDATIONS AS OF
MARCH 31, 2005

ISSUE

At the March Executive Management and Audit Committee meeting, the committee requested that the status of all open audit recommendations be reported monthly. This includes audits performed by Management Audit Services (MAS) and, in compliance with GEN 19, external audits performed by outside auditors.

DISCUSSION

The Office of Inspector General (OIG) submitted the last report of open audit recommendations on February 18, 2005. This report listed all open recommendations as of December 31, 2004. From this point forward, MAS will be providing the monthly report. The report will include a list of all open audit recommendations related to findings reported by Internal Audit, Information Technology (IT) Audit, and outside auditors; statistics on the number of recommendations closed or completed since the last report; and a summary of audit activities in Contract Audit and Grant Audit.

Internal Audits, IT Audits, and audits performed by external auditors usually identify internal control weaknesses, non-compliance with policies and regulations, and systemic weaknesses within the agency. The recommendations in the audit reports are inventoried and maintained in a database management system. Recently MAS initiated a proactive process to follow up on these audit findings. A reminder memo is now sent out 30 days prior to the corrective action due date. Executive Management is copied on this reminder letter. Another memo is sent requesting status when the corrective action is due. Once the due date has passed and MAS has not received the documentation necessary to clear the

finding, a series of memos are sent out escalating the issue to senior management in the agency. This process was instrumental in reducing the total outstanding findings by 30% during the month of March.

During the period between January 1, 2005 and March 31, 2005, 38 (30%) of the internal, IT and external open recommendations were closed or completed. The total open recommendations as of March 31, 2005 are included in Attachment A.

The follow-up activity report uses two statuses when recommendations have been implemented. Closed is used when recommendations from audits are implemented for all but OIG audits. The OIG requires a letter from the CEO before they will consider their recommendations closed. Therefore, MAS identifies OIG recommendations that have been implemented as completed until the CEO letter has been released at which time the status is then changed to closed. Items classified "under review" are recommendations where MAS is reviewing the documentation submitted by the auditee to determine whether the recommendation has been implemented as agreed.

The following table summarizes the follow-up activity for Internal, IT and external audit recommendations between December 31, 2004 and March 31, 2005.

Table 1
Summary of Internal, IT and External Audit Recommendations
As of March 31, 2005

Executive Area	Closed or Completed	Under Review	Extended	Not Yet Due	Total Open Recom.
Chief Capital Mgmt. Officer			2		2
Chief Financial Officer	13		29	6	35
Chief Planning Officer			1		1
Chief of Staff	13		12		12
DCEO/COO	12	10	24	1	35
Totals	38	10	68	7	85

Contract Audit conducts audits related to pre-awards, change orders, and incurred costs, as well as providing support for claims, contract closeouts and contract related litigation. Grant Audit (formerly referred to as "Project Audit") conducts closeout audits of projects funded by the Call-for-Projects. These audits differ from Internal, IT and external audits in that they usually review compliance to contract terms and conditions and their purpose is to provide the Contract Administrator or Project Manager with supporting information to negotiate a fair and reasonable price during negotiations. Occasionally, they may point out a systemic issue with a contractor or an internal agency process. Whenever a systemic issue is discussed in a contract or grant audit report, that issue will be separately tracked in the follow-up database until it is resolved.

Closing contract audits and grant audits is a different process. Contract audits are considered closed after negotiations have been completed and a record of negotiation has been issued. Grant audits are considered closed when the final report is issued.

During the period between January 1, 2005 and March 31, 2005, 13 audits were closed for the Contract Audit group and 28 audit reports remain open pending the results of negotiations. Grant Audit had nine final reports issued and 12 audit reports that were in the draft stage.

NEXT STEPS

Management Audit Services will provide the next monthly status report for the period ending April 30, 2005.

Attachment A: Open Audit Recommendations Report

**All Open Audit Recommendations
as of 3/31/05**

No.	Report Number	Report Date	Audit Entity	Title	Exec Area	Rec No	Recommendation	Original Completion Date	Extended Completion Date	Comments
1	00IA-009	6/21/2001	MASD	Contract Administration Controls	Chief Capital Mgmt Officer Construction	1.2	Reconcile contract values between CCS and FIS.	10/31/2002	3/31/2005
