**SUBJECT:** PUBLIC ART PROGRAM RECEIVES AIA AWARD

I am pleased to inform you that the Metro's public art program received the American Institute of Architects California Council (AIACC) Client Honor Achievement Award.

This award honors clients who have worked with architects and other design professionals to make significant contributions to the promotion and creation of a better built environment. Past winners include Stanford University and Maguire Thomas Partners.

The AIACC is the nation's largest state architectural organization, representing more than 9,000 architects on issues of statewide importance to the public and profession.
