metro.net**SYSTEM SAFETY AND OPERATIONS COMMITTEE
SEPTEMBER 20, 2012****SUBJECT: BUS DATA LOGGER****ACTION: APPROVE CONTRACT AWARD****RECOMMENDATION**

Authorize the Chief Executive Officer to award a 24-month, firm fixed price contract under Bid Number 12-0038 to S & A Systems, Inc., the lowest responsive and responsible bidder for data loggers for an amount not to exceed \$1,501,403, inclusive of sales tax and a one year option.

ISSUE

This procurement is for the acquisition of data loggers, used to track mileage, fluid consumption and fuel economy. Data that is retrieved from the loggers is analyzed and evaluated to maintain safe and reliable operation of the bus fleet. Awarding a contract will allow Metro to procure data loggers at a lower price, as well as ensure availability and price stability.

DISCUSSION

Data loggers are currently installed in our buses. As component replacements are required, each bus will be retrofitted with a data logger that is used to track mileage, fluid consumption and fuel economy. The information recorded by the data logger is vital for maintaining the vehicle and thus avoid disruption in service. The data loggers specified under this procurement have been tested and qualified by Metro to ensure satisfactory performance for all buses operating in transit service.

The contract to be awarded is a "requirements type" agreement in which we commit to order only from the awardee, up to the specified quantity for a specific duration of time, but there is no obligation or commitment for us to order any or all of the data loggers that may be anticipated. The bid quantities are estimates only, with deliveries to be ordered and released as required.

DETERMINATION OF SAFETY IMPACT

Award of contract will ensure that all divisions have adequate inventory to maintain the equipment according to Metro Maintenance standards.

FINANCIAL IMPACT

Total contract funding for these components is \$1,501,403. Funding of \$437,500 is included in the FY13 budget under multiple bus maintenance operating cost centers in project 306002 Operations Maintenance under line item 50441, Parts – Revenue Vehicle.

Since this is a multi-year contract, the cost center manager, project manager, and Chief Operations Officer will ensure that the remaining \$1,063,903 is budgeted in future fiscal years including any option exercised.

Impact to Budget

The sources of funds for this procurement are state, local and federal bus operating funds. No other source of funds was considered because these funds are specifically designated for bus operations.

ALTERNATIVES CONSIDERED

The alternative is to not award the contract and continue to procure data loggers on an as-needed basis at a higher cost. This approach is not recommended since it does not provide a commitment from the supplier to ensure availability and price stability.

NEXT STEPS

Metro's requirements for data loggers will be fulfilled under the provisions of the contract. Based on current consumption records, the entire bus fleet retrofit is expected to be completed by end of FY14.

A. Procurement Background

Procurement of data loggers was conducted as a formal sealed bid, competitive acquisition, in support of awarding a long-term Master Agreement in order to ensure availability and price stability. IFB 12-0038 was issued May 29, 2012 and advertised June 11, 2012. Contract type is Firm-Fixed Price (FFP). No amendments were issued during the solicitation phase of this IFB.

B. Evaluation of Proposals/Bids

A total of two bids were received July 26, 2012. The firm recommended for award, S & A Systems, Inc. was found to be in full compliance with the bid requirements.

C. Cost/Price Analysis

The recommended bid price of \$1,501,403 has been determined to be fair and reasonable based upon adequate price competition and selection of the lowest responsive and responsible bidder.

	Bidder/Proposer Name	Bid/Proposal Amount	Best and Final Offer Amount	Note those that were disqualified as explained above
1.	S & A Systems, Inc.	\$1,501,403	N/A	N/A
2.	Globe Electric Company, Inc.	\$1,540,988	N/A	N/A

D. Background on Recommended Contractor

The responsive and responsible low bidder, S & A Systems, Inc., located in Rockwall, TX is a manufacturer of fuel and fluid system data loggers and other related products for buses for 42 years. S & A Systems, Inc., has provided similar bus equipment to other transit agencies, including Central Ohio TA, Greater Dayton, RTA Forth Worth, TZ, Maryland MTA and Denver RTD. To date, S & A Systems, Inc. has provided satisfactory service and products to Metro on previous purchases.

E. Small Business Participation

The Diversity and Economic Opportunity Department recommended a 5% Disadvantaged Business Enterprise Anticipated Levels of Participation (DALP) for this procurement. The recommended awardee did not list any DBE subcontractor nor commit to any DBE participation.
