Authorization to Introduce Legislation to Recover Loss of Mileage for the Purposes of Computing Share of SB-325 Funds as Result of Work Stoppages

Following adoption of the above resolutions, Director Schabarum, referring back to Resolution No. R-75-138, inquired as to the status of legislation regarding recovering losses due to last year's work stoppage thereby changing the formula for computing the share of SB-325 funds. Mr. Gilstrap replied that it was roughly estimated that \$2-million would be lost by reason of the miles not operated during the work stoppage; that the Board of Supervisors authorized their staff to seek relief since the loss was going to fall primarily on the County by reason of the District receiving the last of the SB-325 funds. Further, that the District has not sought introduction of legislation that would cure the problem but certainly would do so if it was the pleasure of the Board. He further pointed out that in reaching

agreement with the municipal operators on the designated recipients issue the municipal operators specifically gave the District relief on this problem so that any time there was a work stoppage, the District or any of the municipal operators, those miles would not be lost in the calculation of the subsidy under the program.

Director Schabarum inquired if the bill had been drafted and Mr. Gilstrap replied that it had not, but if it was the pleasure of the Board the staff would seek introduction of such legislation prior to the April 15 deadline for introducing legislation.

On motion of Director Neusom, seconded and unanimously carried, the staff was instructed to draft and seek introduction of legislation to amend the California Code which would cure the loss of mileage for the purposes of computing the District's share of SB-325 funds as a result of work stoppages.

After discussion, on motion of Director Gibbs, seconded and carried, with Director Eyraud voting "No", the staff was directed to deliver the Board books to Directors on the Friday preceding Board meetings, with the books containing all action and information items as time permits.

Approval of Membership Renewal in International Union of Public Transport and Authorization to Travel to Annual Meeting

With the approval of the eight Directors present, the matter of membership renewal in the International Union of Public Transport (UITP) (Information Item "K" on the Agenda) was added to the Agenda.

Director Gregory, Chairman of the Personnel Committee, reported that the Committee had reviewed at length the report on organizations as contained in the report dated March 31, 1975, Information Item "K" on the Agenda. As a result of that review the Committee recommended membership renewal in the International Union of Public Transport (UITP), as well as authorization for Directors and staff to attend the organization's annual meeting in Nice, France during the period May 25-31, 1975, and to inspect other European transit properties as time permitted.

After discussion, on motion of Director Gregory, seconded and unanimously carried, the following resolution was adopted:

Progress Report on Rapid Transit/Commuter Rail Programs and Status Report on Joint Powers Agreement with CalTrans

General Manager Gilstrap reported on the recent establishment of the Rapid Transit/Commuter Rail Department and introduced Manager of Rapid Transit/Commuter Rail Richard Gallagher to present a status report, including relationship with Caltrans.

Mr. Gallagher reported on the Rapid Transit Action Committee (RTAC) which has been formed with delegates from Caltrans, City and County of Los Angeles, Orange County, OCTD, SCAG and SCRTD. The League of California Cities has also been invited to send a delegate. The first meeting of the Committee was held on March 28.

His report included possibilities of rapid transit starter line locations, funding, with the goal being a committee consensus in a starter line by July 1, and a capital grant application to UMTA by the end of this year. He also reported on the status of the Commuter Rail projects and the status of the Joint Powers Agreement with Caltrans.

The report concluded with the recommendation that we proceed to develop the project as rapidly as possible, together with a request that Caltrans submit a proposal to the District regarding Caltrans' participation in accordance with the provisions of Chapter 1060, Statutes of 1973 (AB-1727 Gonslaves), prior to the finalization of a Joint Powers Agreement.

A copy of Mr. Gallagher's report is attached to these Minutes as EXHIBIT 4.

Director Schabarum inquired concerning the local matching funds and Mr. Gallagher reported that Proposition 5 could fund an \$800-million program in the next five to six years, but we would need other funding for the vehicles. Fixed facilities could be funded out of Proposition 5 and UMTA funding.

Director Eyraud inquired if we have a definitive answer as to to fixed guideways, and Mr. Gallagher replied it was his

understanding it is a system operating on tracks, but there is a question as to whether busways can be considered fixed guideways. Mr. Stubbs reported a legislative opinion has stated that a busway could be considered, and Mr. Gilstrap stated that Senator Mills is opposed to any Proposition 5 funds to provide bus operation being considered rapid transit.

Director Gibbs stated that he was interested in the private sector being involved, referring to the proposed Joint Powers Agreement with Caltrans, and Director Neusom replied that we have been negotiating with Caltrans for some time, that they do have control of the money, that we are trying to negotiate in light of the Gonsalves legislation and it is important to the District to get the contract negotiated on whatever terms as soon as possible.

Director Gibbs felt the District should make the proposal to Caltrans and not ask them what they would propose, to which Director Neusom replied it is essential we have an agreement and establish some ground rules. Mr. Gallagher stated that the District certainly wouldn't have to accept everything that Caltrans proposed.

Mr. Gilstrap then stated that the staff could bring completely up to date a contract draft and present it to the Board at its next meeting for approval and submit it to Caltrans, which might be as acceptable as asking Caltrans for a proposal, and further suggested that if the private sector was interested they had better go to work in Sacramento.

The discussion was concluded with the understanding that the staff would bring back to the next meeting of the Board a draft contract for consideration, following which it would be submitted to Caltrans.

Board of Directors Recessed in Executive Session at 2:10 p.m.

On motion duly made, seconded and unanimously carried, the Board of Directors recessed in Executive Session at 2:10 p.m. to consider personnel matters.

currently scheduled last trip departing the Los Angeles downtown area at 5:35 p.m. on the Long Beach Park-Ride Line No. 755.

Secretary

Opening Remarks of President Cook
At Board Meeting April 2, 1975

Following Roll Call

I assume all Directors received my letter dated March 24 and today's Agenda will be the first trial of the changes suggested therein. What I am trying to do is simplify and streamline our Board operation and save us all more time.

As to the mechanics, I would like to follow this approach:

- . After the Consent Calendar, each Committee Chairman will report on the items noted, holding out for discussion only those items requested by the Committee, other Directors or the public in the audience.
- . We'll hear all Committee Chairmen reports and act on all non-controversial items, and then go back and consider individually the items held out for further discussion.
- . Following resolution of these items, we will hear those matters on which staff presentations are prepared.
- . Next will be Director Special Items (No. 29 on today's Agenda). Here I would like to ask that each Director
