WHEREAS, the Surface Operations Committee on April 27, 1970 considered General Manager Samuel B. Nelson's report dated April 22, 1970 recommending the establishment of a bus service along Fulton and Woodman Avenues between Ventura Boulevard and Roscoe Boulevard in the San Fernando Valley to serve the Los Angeles Valley College and residents in the area, said service to be designated as the "Fulton-Woodman Avenues Line No. 138;" and

WHEREAS, the Committee was advised that the proposed service would be operated on an hourly frequency from approximately 7:00 a.m. to 7:00 p.m., Monday through Friday only, requiring the use of one vehicle; that the estimated cost of the operation, based on the current level of expense, would be \$32,600 per year, and that in order to meet the annual cost, it would be necessary to attract approximately 400 new riders per day; and

WHEREAS, the Surface Operations Committee concurred in General Manager Nelson's recommendation that Line No. 138 be established, effective as of September 13, 1970;

RESOLUTION NO. R-70-92

WHEREAS, the District has received numerous requests from residents, business establishments, Chambers of Commerce and City officials for the provision of bus service between the Topanga Canyon Plaza Shopping Center and the Woodland Hills area adjacent to Ventura Boulevard along Topanga Canyon Boulevard; and

WHEREAS, extensive studies by District's Staff indicate that, while the population density along and adjacent to Topanga Canyon Boulevard would not be sufficient to generate the revenues required to meet the out-of-pocket expenses involved, existing conditions are compatible for the combining of Line Nos. 81 and 131 to provide the requested service to Topanga Plaza, and at the same time fulfill the many requests received for service to the West Valley Occupational Center and to Pierce College; and

WHEREAS, a review of the schedules of Line Nos. 81 and 131 indicates that by taking advantage of the schedule recovery time on Line No. 81 and the time gained in the abolition of the turning loop around the Topanga Plaza Shopping Center on Line No. 131, the extension/connection can be accomplished within the framework of the present schedule and vehicle requirements of the two lines, and that the expense to the District would be the additional mileage, which is estimated at approximately \$6,000.00 per year; and

WHEREAS, the proposed schedules on the combined Line would provide hourly service frequencies between approximately 5:30 a.m. and 7:30 p.m., Monday through Friday, and between approximately 6:30 a.m. and 7:00 p.m. on Saturdays; and

WHEREAS, the Surface Operations Committee on April 27, 1970 considered General Manager Samuel B. Nelson's report dated April 22, 1970 recommending
