Report of General Counsel on Progress of Negotiations to Purchase Property Adjacent to El Monte Division

At the request of Director Compton, Chairman of the Surface Operations Committee, General Counsel McKay reported that negotiations were proceeding with the owner of the property adjacent to the District's El Monte Division, and that there were under discussion arrangements whereby either the District would restrict its purchase to the land and pay the owner his relocation costs for the structure located thereon, which amount would be less than the appraised cost of the building, or, in the alternative, the owner might be interested in immediately selling the whole parcel of property to the District and then leasing it back for a period until the District actually needs it as a part of the busway project or for Division use.

DATE: August 17, 1970

TO: Personnel & Administrative Procedures Committee
FROM: Samuel B. Nelson, General Manager
SUBJECT: Personnel Changes

The following personnel changes have been recommended to the General Manager by the Staff Personnel & Administrative Procedures Committee.

Department 2000 - Administration

Since January, 1969, Mr. R. K. Kissick, Administrative Assistant, has been performing administrative duties in the office of the General Manager. He also works closely with other staff members and department heads, prepares analytical studies, recommendations and correspondence, and is secretary and coordinator of all staff committees which have been established by the General Manager.

This position is established in Range 24, with the incumbent presently in Step E, \$1,207 per month. It is proposed to upgrade this position to Range 26, and place Mr. Kissick in Step D at a salary of \$1,276 per month.

Department 3300 - Maintenance & Equipment

There is a position of Chief Clerk to the Superintendent at South Park Shops established in Range 15 (\$597 - 740) which is presently vacant. Since there are no secretaries assigned to the Maintenance & Equipment Department, it is felt that a more efficient function would be realized if a Secretary II position, Range 14 (\$567 - 701) were established and the Chief Clerk position abolished. At the E Step of the two positions involved this would result in an annual savings of \$468.

Page -2-

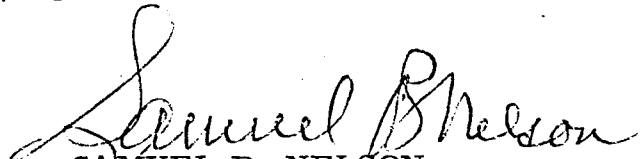

Department 3700 - Purchasing & Stores

Mr. J. L. Smith, Director of Purchasing & Stores, is the lowest paid member of the staff at an annual salary of \$15,265. Mr. Smith has the responsibility for an annual volume of over \$3-million in operating purchases and \$4.5 to \$5-million in capital items. In view of his responsibility and performance it is recommended that his salary in the Management Group be adjusted to \$18,000 annually.

Mr. E. W. Stanley, Chief Clerk of the Purchasing & Stores Department, has actually been performing the duties of an Assistant Director. Mr. Stanley's salary at present is in Range 20, Step E, \$972 per month. It is recommended that a new position of Assistant Director of Purchasing & Stores be established at Range 23 (\$920 - 1,144) and the position of Chief Clerk be abolished. Mr. Stanley would be assigned to the new position at Step D of Range 23, \$1,084 per month.

RECOMMENDATION:

I certainly feel that the above recommendations have merit and are justified. It is the General Manager's recommendation that the personnel changes outlined above, and summarized on the attached sheet, be approved, and that the Non-Contract Position and Classification Plan be amended to include these changes effective August 16, 1970.

SOUTHERN CALIFORNIA RAPID TRANSIT DISTRICT

General Manager's Report
For Board Meeting, August 18, 1970

A number of activities involving relationships with various government agencies, as well as the media, were among my activities and staff members' agendas since I last reported to you.

Mr. Gilstrap and I were in Sacramento on August 5 for a meeting of the State Transportation Board. I was allotted time for a presentation on the District's current and long-range efforts. In reporting on our undertakings to fulfill the mandate of the Legislature for improvement in the bus service and construction of rapid transit, I emphasized the need for long-term financial assistance for public transit.

It appears that we are making progress in breaking the log jam with regard to the funding of the Exclusive Express Busway project. At the request of Assemblymen William Campbell and Walter Karabian, Directors Krauch, Neusom and Gleckman, and also Staff members Gilstrap, Gallagher, McKay and myself, met last Tuesday morning in Assemblyman Campbell's office in Sacramento. Also in attendance were representatives of the Secretary of Business & Transportation, the Department of Public Works and the State Highway Department. We discussed in detail the El Monte Express Busway funding. Mr. Van Camp, representing Mr. James Hall, Secretary of Business & Transportation, stated he would prepare a letter for Mr. Hall's signature to either Mr. Volpe or Mr. Turner in Washington. The letter will state in essence that the California Highway Department is in favor of declaring the El Monte Express Busway from Santa Anita Avenue to Mission Road, as a project that is eligible for 90-10 funding. Mr. Van Camp assured us that such a letter would be sent to Washington before the end of the week and that he, Mr. Campbell, and we would receive a carbon copy of this letter. To date we have not received a carbon of this letter.

Mr. Curtis represented me at an August 11th meeting of Mayor Yorty's Transportation Advisory Committee. Clifton Moore, General Manager of the Department of Airports, and Herb Thomas of Kaiser Engineers, made a presentation on the proposed high-speed line linking International Airport and the San Fernando Valley. On August 4 Messrs. Beardsley, Pawloski and Holzer heard a similar presentation to the Committee on Ground Transportation in and around Los Angeles International Airport. The Department of Airports reports that \$33 million will be required to complete an internal transit system for the airport.
