Appearance of Mr. John Thousand and Mr. Frank Goessens

Manager of Operations George Heinle introduced Mr. John Thousand, representing Raad International, and Mr. Frank L. Goessens, representing the Van Hool and Zonen Puba, Brussels, Belgium.

Mr. Thousand reported on the efforts of Raad International to furnish U. S. transit properties with articulated buses utilizing American technology and American labor on a free enterprise basis.

Mr. Goessens reported on Van Hool's experience in building buses in the European market, and stated he felt they could build the articulated buses according to specifications as developed by the District.

Carried Over - Motion Regarding Rapid Transit Starter Line

On motion of Director Price, seconded and unanimously carried, the matter of discussion of a rapid transit starter line was added to the agenda.

Director Price reported on the UMTA deadline on the rapid transit starter line and the fact that the Los Angeles County Board of Supervisors and the City of Long Beach have already adopted a starter line commencing in Canoga Park in the San Fernando Valley, thence through the Los Angeles Central Business District and south to Long Beach and the harbor area.

Mr. Price moved adoption of that rapid transit starter line by the RTD Board of Directors, which motion was seconded by Director Eyraud.

Director Brewster requested a staff report which was listed on the agenda under Information Item "F".

General Manager Gilstrap reported on the activities of the Rapid Transit Advisory Committee the membership of which is composed of technical and other representatives from the City and County of Los Angeles, CalTrans, League of California Cities, and others, to make a recommendation on a starter line, and that the committee has been working very hard.

The basic funding should be from Proposition 5, and if the City, County and the State contributed under that we could anticipate \$150-million local matching money. The Federal money would pick up the 80-percent balance of the project, and that is the way we would proceed.

The second major objective was to look at the corridor plan and find a starter line and, thirdly, the committee establish important criteria such as cost, ridership, rapidity in which it could be built and other factors, with the UMTA requirement that it be an effective system which could stand on its own. The committee reduced about sixty corridors down to eleven from which to select a starter line, and there are differences in costs, ridership potential, et cetera, in all eleven corridors.

Mr. Brewster pointed out that the committee is working very hard to make a recommendation, while other agencies are jumping the gun, and inquired if the Board was ready at this point for a recommendation.

Mr. Gilstrap reported that the committee is still meeting, with a sub-committee meeting today and the full committee scheduled to meet next Friday, and that the staff had intended to be to the Board with a recommendation at the first meeting in July.

Mr. Gallagher stated that everyone on the committee is working together and outlined the composition of the committee. Two sub-committees have been requested to study the eleven corridors and come back to the full committee with a recommendation. Further, that at last Friday's meeting the representatives had been requested to go back to their agencies to determine their respective recommendations. He also reported on the committee work in reviewing engineering and passenger potential of each corridor.

Mr. Brewster felt the Board should have the committee's recommendation before taking any action and not act as the result of the actions of the County and the City of Long Beach.

Mr. Gallagher reported that the Ward-Bradley proposal for a starter line would not be entirely grade-separated but the committee is looking at all proposals.

Mr. Gilstrap stated that the Board could instruct the staff to make a recommendation at the first meeting in July.

Mr. Price felt that RTD Board should make a conceptual recommendation today.

Mr. Eyraud felt that if the City and County and the City of Long Beach want this starter line, we should act now.

President Cook felt the idea was good and the Board should act.

Mr. Takei felt the Board should get all the input before acting since especially the City of Los Angeles has not yet taken a stand, and the Board may also hear from other cities.

Mr. Gibbs stated it takes a lot of political consensus to get started and a lot of momentum has been generated.

Mr. Brewster still felt the Board should hear from the advisory committee before making a decision.

Mr. Gilstrap stated the RTD is in a different role because the funding to build the system will not come from the RTD, but from a partnership of cities, county and the state, and felt that another week or two would not be a detriment to the program.

At this point Director Eyraud withdrew his second to Director Price's motion which was on the floor.

Director Gibbs moved that the Board carry Director Price's motion over to the next meeting of the Board, which motion was seconded by Director Price and unanimously carried.

Director Gibbs left the meeting at 1:50 p. m.

JACK R. GILSTRAP
GENERAL MANAGER

June 13, 1975

To: Board of Directors

From: Jack R. Gilstrap

Subject: CONSIDER ADOPTION OF THE DISTRICT'S OPERATING AND CAPITAL BUDGETS FOR FISCAL YEAR 1976 IN THE COMBINED AMOUNT OF \$181,500,000.

Summary

The operating and capital budgets for fiscal year 1976 have been developed by the staff based on all currently available information on probable costs and revenue. The budget material was submitted to your Board on May 21, 1975 for information and was the subject of public hearing at your meeting of June 4, 1975. No changes were recommended at the public hearing. The trust indenture provisions call for the Board to adopt the budget not later than June 30, 1975.

The level of subsidy funds from Los Angeles County has not been set at this writing. The District has expressed a preference for \$25.7 million to permit the retention of the 25¢ flat fare and to permit further service improvements. An alternative is a \$17 million plan which calls for 25¢ base fare plus 20¢ zone charges with limited service improvements. The County preliminary budget contains a figure of \$12.1 million and your Board recommended a 35¢ base fare and 20¢ zones and improved service if the subsidy is limited to \$12.1 million.

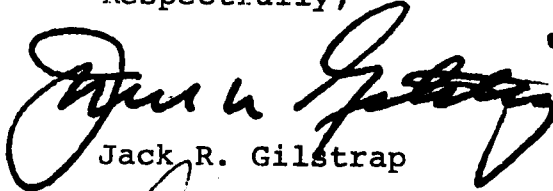

Other major revenue sources appear to be reasonably secure although the UMTA operating funds may be delayed by the continuing efforts by our industry to negotiate so called 13c labor protection provisions. This delay could cause a cash shortage by the end of this calendar year.

I would like to reiterate that Board approval of these budgets does not carry with it approval of all the cost items in the budgets. For example, every new non-contract employee position must get specific Board approval; consultant contracts and all significant procurements will come to the Board for approval during the year pursuant to the District's Rules and Regulations; and each capital project must receive specific Board approval before it is undertaken.

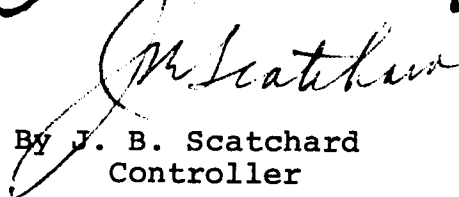

June 13, 1975

Once the County position on the subsidy for next year is firm there may be some budget adjustments necessary. The Board will be kept informed as the situation evolves.

Respectfully,
