Authorization to Call for Bids Covering the Purchase of Two Hundred Transit Buses with Specifications Providing Accessibility for the Elderly and the Handicapped

Director Eyraud, Chairman of the Surface Operations Committee, reported that earlier in the day the Joint Committee

had reviewed the report dated April 29, 1975, a copy of which is filed with the Secretary, regarding the alternatives available concerning the call for bids covering the purchase of 200 transit buses. After review, the Committee recommended that bids be issued for the purchase of 200 transit buses with the specifications providing for a bus fully equipped to handle the elderly and the handicapped, with delivery within 17 to 21 months after contract award. Director Eyraud moved approval of the recommendation, which motion was seconded.

General Manager Pro Tempore Stubbs reported that adoption of the recommendation would somewhat reduce the District's claim with the County of Los Angeles for the Fiscal Year 1976 due to the buses not being delivered during the coming fiscal year, and that many of the new programs scheduled during the coming year will not be instituted since the additional buses will not be received.

The question was called for, unanimously carried, and the following resolution was adopted:

RESOLUTION NO. R-75-170

WHEREAS, this Board of Directors has reviewed the report dated April 29, 1975, a copy of which is filed with the Secretary, reporting on the comments received from bus manufacturers regarding the ability of the manufacturers to provide buses equipped to provide accessibility for the elderly and the handicapped, with at least one manufacturer indicating that such equipment could be provided with delivery dates from 17 to 21 months following date of contract award;

NOW, THEREFORE, BE IT RESOLVED, that the General Manager be and he hereby is authorized to call for bids covering the purchase of two hundred (200) heavy-duty transit buses with specifications providing accessibility for the elderly and the handicapped as outlined in Resolution No. R-75-156

adopted April 16, 1975, except that said Resolution No. R-75-156 be and the same is hereby amended by deletion of the following portion of the first paragraph thereof:

"together with alternate specifications which would provide certain penalties for bidders in the evaluation of bids with respect to meeting the specifications relating to the accessibility features for the elderly and the handicapped, i.e., door width and floor height".

RESOLVED FURTHER, that the aforementioned specifications may include a clause providing for delivery dates from 17 to 21 months following date of contract award; form of bid requirements and specifications subject to approval of the Urban Mass Transportation Administration and the General Counsel.

Board of Directors Recessed in Executive Session at 1:23 p.m.

On motion duly made, seconded and unanimously carried, the Board of Directors recessed in Executive Session at 1:23 p.m. to consider personnel matters.

The Board reconvened at 1:34 p.m. with Directors Brewster, Cook, Eyraud, Gibbs, Gregory, Neusom, Price and Takei responding to Roll Call. Directors Carter, Schabarum and Ward were absent from the meeting.

A report regarding matters discussed in the Executive Session was presented later in the meeting.

Approval of a Portion of Proposed Summer Beach Services

Mr. Neal Tepper, 7244 Independence, Canoga Park, representing himself, appeared before the Board urging adoption of the special summer beach services, especially in the San Fernando Valley. He stated the beach services are badly needed both daily and on weekends in order to prevent the youth from hitchhiking to the beaches.

As a result of a request by the Joint Committee at its meeting earlier in the day, Mr. Beardsley reported that the staff had reviewed last year's beach services and recommended establishment of service this summer on the two lines that were most heavily patronized last year; i.e., the line operating between the

San Fernando Valley and Santa Monica and the line operating between Pasadena and Santa Monica, together with adoption of Alternate No. 4 in the report dated May 1, 1975, a copy of which is filed with the Secretary, which would provide the services during off-peak hours and weekends. Mr. Beardsley reported that last year the Valley service had required up to 15 buses on some days, and the Pasadena line had required up to five buses on certain days.

Mr. Stubbs reported that any motion adopted should also include the marketing plan attached to the report, in the total amount of \$18,000. Upon inquiry of Director Takei, Mr. Stubbs stated that the marketing plan could include information on methods of getting to the beaches from the South Central Los Angeles area via present services.

Director Price moved adoption of the staff recommendation, including the marketing plan, which motion was duly seconded and carried, with Director Brewster voting "No" and the following resolution was adopted:

RESOLUTION NO. R-75-175

RESOLVED, that the General Manager be and he hereby is authorized to make appropriate revisions of the Official Route Descriptions adopted November 4, 1964, as amended, to operate summer beach services by the inclusion of Original Page 695, Pacoima-Van Nuys-Santa Monica Summer Beach Service, and Original Page 696, Montrose-Pasadena-Highland Park-Lincoln Heights Summer Beach Service, in said Official Route Descriptions, together with necessary revisions to the Local Passenger Tariff; subject to approval of the Consulting Engineer and favorable comments from the County of Los Angeles;

RESOLVED FURTHER, that the program of marketing in the total amount of \$18,000 for the above-described summer beach services, a copy of which is filed with the Secretary, be and the same is hereby approved.

Director Neusom left the meeting at 1:45 p.m.

Approval of the Establishment of the Effective Date of the Five-Year Experimental Period for the El Monte-Los Angeles Express Busway

After discussion, on motion of Director Eyraud, seconded and unanimously carried, the following resolution was adopted:

RESOLUTION NO. R-75-176

RESOLVED, that the report dated May 1, 1975, a copy which is filed with the Secretary, be and the same is hereby adopted, and the General Manager be and he hereby is authorized to concur with CalTrans' recommendations that the five-year experimental period for the El Monte-Los Angeles Express Busway commence on May 1, 1975; form of concurrence subject to approval of the General Counsel.

Consideration of Draft District/CalTrans Joint Powers Agreement

Mr. Gallagher reviewed the report dated May 1, 1975, a copy of which is filed with the Secretary, reporting on suggestions for modifications of Draft #7 of the District/State Joint Powers agreement which had been submitted by Director Gibbs on April 16, 1975. Mr. Gallagher further reported that the agreement had been drafted to provide that CalTrans do work within the areas of expertise of CalTrans in accordance with the 1974 Gonsalves bill (AB 1727).

Director Gibbs stated that Mr. Gallagher's reply to his suggestions indicates that CalTrans won't agree to the proposed modifications, and that he saw less and less reasons for CalTrans to do the work. He further stated that the Gonsalves bill says that the District shall enter into a joint powers agreement that is satisfactory to both parties. He further stated that in talking to members of Mr. Gallagher's staff he was informed CalTrans is a lot more expensive than private enterprise, so

his suggested modifications were that CalTrans and private sectors could be doing work under the same basis for comparison and these are normal in contracts. He also said he had checked with several private firms and they indicated they could work at or below the cost of CalTrans. He suggested that Mr. Gallagher write CalTrans using a situation pitting a private organization up against CalTrans on one of the first segments of similar size and tell CalTrans that if, in fact, they can do the work on the same order of magnitude and cost as the private firm then CalTrans could be considered for future roles, but if CalTrans can't do the work at or below the cost of the private firm then CalTrans won't be considered. Director Gibbs felt that if CalTrans' costs were considerably higher, as they have been in the past, it would at least be a demonstration of the District's goodwill on a test basis.

Director Gibbs moved that Mr. Gallagher rewrite the draft agreement on the parameters outlined above, which motion was seconded by Director Eyraud and unanimously carried.

Consideration of Revised Request for Proposal Covering the District's Graphics Requirements to Include the Function of a Design Consultant

Mr. McDonald reviewed the report dated May 1, 1975 recommending that a design consultant be retained to work with a staff committee to be appointed by the General Manager to review the District's design and graphics needs and, after meetings with Director Gibbs on the subject, the staff recommended the retention of a design consultant.

Director Takei inquired as to what the cost of the design consultant would be and Mr. McDonald replied he could only estimate the cost but it would probably be on the order of a per diem of \$200 per day.

Director Eyraud questioned the fact that we should proceed with the proposal at this time in view of the fact that there

were bills pending in Sacramento which could change the name of the District, and Director Gibbs felt it was even more important to proceed now.

Director Price moved approval of the recommendation, which motion was seconded by Director Gibbs. By the following Roll Call vote of 5-2 the motion failed, since six votes are necessary to adopt a formal action:

<u>Ayes</u>	<u>Noes</u>
Brewster	Eyraud
Cook	Takei
Gibbs	
Gregory

Authorization to Exercise a One-Year Contract Option with District's Advertising Agency, and Additional Option for One Year

Mr. McDonald presented the report dated May 2, 1975, a copy of which is filed with the Secretary, recommending exercising of a one-year option for Fiscal Year 1976 with the District's incumbent advertising agency, Gumpertz/Bentley/Fried/Scott and to provide for an additional option of one year. He reported that no expenditures would be made under the contract for advertising until the budget for next year is submitted to the Board and adopted.

Director Eyraud inquired as to the reason for the option for an additional year, and Mr. Stubbs replied that it saves the matter of the Board going through a series of presentations each year, and that the option, of course, would not have to be exercised. Mr. McDonald stated that the staff would be

hampered to plan for the future if there is no option, and Mr. Powers further explained it gives the District a contractual right and is a protection to the District and, further, the option would not have to be exercised. Mr. McDonald also stated that the option includes a renewal at the present rates.

After discussion, on motion of Director Price, seconded and unanimously carried, the following resolution was adopted:

RESOLUTION NO. R-75-177

RESOLVED, that the report dated May 2, 1975, a copy of which is filed with the Secretary, be and the same is hereby approved, and the General Manager be and he hereby is authorized to execute on behalf of the District a one-year contract option for Fiscal Year 1976 with the District's incumbent advertising agency, Gumpertz/Bentley/Fried/Scott, with said contract providing for an additional option of one year; form of contract subject to approval of the General Counsel.

Review of Director Ward's Proposals Regarding Light Rail and Commuter Rail Systems

In the absence of Director Ward, his Supervisorial Deputy Jonathan Beaty, reviewed Director Ward's report dated April 29, 1975, a copy of which is filed with the Secretary, which report was addressed to the SCRTD Advisory Committee. The report offers suggestions on a number of future rail projects that utilize either existing rights of way or actual trackage, including proposals as to the simultaneous construction of two immediate rapid transit starter routes. The report suggests that the rapid transit lines be operated as light rail systems.

Following his presentation, Mr. Beaty reported that Director Ward had requested the RTD Board to:

1. Move up the timetable that the Rapid Transit Advisory Committee is now moving on up to a cut-off date this year, rather than next year, in order that capital grant applications can be made this year to the federal government; and
2. Look with favor on his proposal and ask the Committee and the RTD staff to give priority consideration to the light rail concept so that the Advisory Committee can best make up its mind and submit recommendations to the Board.

Mr. Beaty stated that Director Ward feels the federal government would give the light rail proposal more consideration than a heavy rail proposal.
