Award of Contracts - District's Petroleum Products Requirements

Director Compton, Chairman of the Surface Operations Committee, reported that the Committee on May 19, 1969 considered the General Manager's recommendations with respect to the awarding of contracts for the District's petroleum products requirements for a one-year period commencing June 1, 1969, but that the Committee would like to have an opinion from the General Counsel with respect to the question of a conflict of interest before recommending approval of the General Manager's recommendations.

General Counsel McKay thereupon stated that Director Eyraud at the meeting held March 18, 1969, at which the Purchasing Agent was authorized to issue invitations to bid on the District's

petroleum products requirements, stated that he had been a carrier for nearly all of the petroleum companies in the Los Angeles area for a number of years, and he abstained from voting on the matter.

Mr. McKay further stated that he had discussed the matter with Director Eyraud in view of the various provisions of the Government Code, commencing with Section 1090, and had prepared a statement for him to make on his behalf, but that, since Director Eyraud was not present at the meeting today, he would make the statement for him and make it a part of the official records of the meeting so that the District could act on this matter today.

General Counsel McKay then read the following statement:

"Director Eyraud disclosed at a prior meeting that he had supplied carrier services to nearly all petroleum companies and that he did not desire to take part in any proceedings in the award of the District's petroleum contracts. He has not taken any part in the proceedings of the District, nor, to my knowledge, has he discussed with or attempted to influence any member of the Board in regard to the contracts.

Section 1091 of the Government Code provides that a 'remote interest' authorized by law does not constitute a conflict of interest, nor an interest in a contract. Paragraph 7 of Section 1091 provides that a 'remote interest' includes one of a supplier of goods and services when such goods or services have been supplied to the contracting officer for at least five years prior to his appointment to office. Director Eyraud informed me that he has provided carrier services to all of the petroleum companies, including those that may be awarded bids here today, for a period in excess of five years. As a matter of fact, he has done it, in some cases, up to thirty years.

I advise, therefore, as General Counsel that no conflict of interest, or interest in a contract, problem or impediment therefore exists for this Board in making this award, since this remote interest has been disclosed to the Board, it has full knowledge of it, it has been noted in the official records, and the member has not participated in the proceedings, nor has he voted on the matter."

After discussion, on motion of Director Compton, Chairman of the Surface Operations Committee, seconded and unanimously carried, the following resolution was adopted:

RESOLUTION NO. R-69-125

WHEREAS, on March 18, 1969 the Purchasing Agent was authorized to call for bids on the District's petroleum products requirements for the year commencing June 1, 1969 in accordance with the bid specifications presented and discussed at that meeting and in accordance with the Rules and Regulations; and

Approval of Sale of Used Surplus 1951 Model TDH-5103 G.M.C. Diesel Coaches - Community Enterprises, Inc. and Leeward Bus Lines

Director Compton, Chairman of the Surface Operations Committee, reported that the Committee on May 19th considered the General Manager's recommendation to sell two used surplus 1951 Model TDH-5103 G.M.C. diesel coaches to Community Enterprises, Inc. and ten similar coaches to Leeward Bus Lines of Pearl City, Hawaii, together with an option to Leeward to purchase ten additional coaches on or before July 1st, at \$2,000 per coach, as is - where is, less tires, with a finder's fee to be paid to American-International Bus Exchange of 10% of the total sales price, and that the Committee approved the sale as recommended by the General Manager

) Director Hayward thereupon stated that, while he supported the recommendation of the General Manager, the Staff and the Committee, he would like to point out a concern he had experienced the past week in that the agent for the sale here under consideration was the same agent who, according to the local metropolitan newspaper, appeared before a local judicial body and stated that buses from the same group sold on competitive bid for \$2,200 were, in his opinion, sold \$800 below what he would estimate the price to be; and that at the last Board meeting and again at this meeting the Board is selling coaches from the same group for \$1,800, not \$2,000, to the same gentleman who exhibited the criticism.

) Director Krauch requested that Director Hayward's remarks be made a part of the record of the meeting to show the inconsistency of the man who testified before a judicial body that these buses were worth \$3,000 and he is now buying them from the District for \$2,000.

After further discussion, on motion of Director Compton, seconded and unanimously carried, the following resolution was adopted:
