General Manager Dyer also reported that it would be necessary to have a Closed Session at the close of the meeting to discuss labor negotiation issues.

Mr. Dyer reminded the Board members of the public hearings scheduled for July 29th, especially the public hearing on Milestone Reports No. 3 and 4 scheduled to begin at 1:00 p.m. Approximately 40 people have already requested a time to speak before the Board. The General Manager's recommendation was distributed to members of the Board earlier in the week, and Mr. Dyer indicated that the staff was prepared to discuss those recommendations at this time, if the Board so desired. He indicated that the alternatives should be studied and carried forward to the Milestone No. 10 level. The decision on Milestones No. 3 and 4 should be made sometime during the month of August so that work can proceed on Milestone No. 6.

Director Special Items

Director Takei reported on the visit to Toronto and Montreal he and Directors Swanson, Richter and Meseck made July 20 through July 23. Report of the Customer Relations & Public Information Committee

Director Richter, Chairman of the Customer Relations & Public Information Committee, reported that the Committee, on a split vote, recommends approval of the staff proposal under Agenda Item No. 8, and she so moved, which motion was seconded.

Director Takei commented that he had been advised that the N. W. Ayer firm would be used to develop brochures for the District since the advertising budget is so limited for this fiscal year. He suggested that the District develop the in-house capability to produce brochures. General Manager Dyer responded that there may be enough flexibility in the budget to accommodate Director Takei's suggestion, however, in the short-term, the amendment to the Ayer contract is the only way that the District will have access to this type of skill which could be of value during the labor negotiation period. Directors Patsaouras and Meseck spoke against the recommendation, indicating that the reduction in the District's advertising budget and the resultant commission to the advertising agency was a normal business risk. President Lewis indicated that if the District were to keep the percentage commission in the contract, the maximum amount of moneys the agency could expect would be approximately \$23,000 and that the District would not be able to employ a person with the talents required to do this type of work in-house for that amount of money. Director Takei asked the maker of the motion to include in the motion a request to staff to study the possibility of developing or acquiring the capability of doing this type of
