San Bernardino Express Busway Project -
Affirmation of 30-Foot Minimum Width of Project
Operating Roadway

Upon approval of the eleven Directors present, consideration of resolution relating to roadway design of the San Bernardino Express Busway Project and the desired width thereof was added

to the Agenda.

After discussion, on motion of Director Topping, Chairman of the Advance Planning & Engineering Committee, seconded and unanimously carried, the following resolution was adopted:

RESOLUTION NO. R-70-223

WHEREAS, the San Bernardino Express Busway Project is of primary importance to the development and operation of the District's public transportation system; and

WHEREAS, conferences are now being conducted between the representatives of the District and the California Division of Highways as to its design; and

WHEREAS, such conferences seek to establish conformity with the criteria set forth in the August 6, 1970 joint letter of the Federal Highway Administration and the Urban Mass Transportation Administration, a copy of which is attached to these Minutes as Exhibit 5, and as agreed upon at the meeting held at the District on September 1, 1970 of all the interested governmental agencies;

NOW, THEREFORE, BE IT RESOLVED, that this Board of Directors affirms that the design of the project operating roadway have a desired width of thirty (30) feet, gutter line to gutter line, so as to assure conformance with the desired safety and operational criteria.

General Manager Nelson was directed to forward a copy of Resolution No. R-70-223 with a cover letter advising all interested governmental agencies that the District had reviewed in detail all the proposals relating to operating safety and that, in view of the discussions relating thereto, had considered it advisable to adopt the resolution affirming its position.

Report of Director Thomas G. Neusom on Negotiations to
Acquire the Blue & White Bus Company of Watts

Upon approval of the Directors present, consideration of the report of Director Neusom on his efforts to contact Dr. Matthew in connection with the acquisition of the Blue & White Bus Company of Watts was added to the Agenda.

Director Neusom reported as follows:

"Mr. Goehler and I were informed that Dr. Matthew, who is the president of the corporation which owns the Blue & White Bus Company of Watts, would be in the city on last Friday (September 11) and we arranged to go to the office of the Blue & White in the hope that they would have some information or at least be able to tell us where or when we could meet with him, or, as we had hoped, that he might have been in the office.

We arrived there at 9 o'clock and talked with Mr. Atkinson who is their operating manager at present, who indicated that his time was going to be rather short, and he told us that he did not know where Dr. Matthew was; that, to his knowledge, he was not in the city, and that there was no information that he could give us as to how to contact him directly. He gave us the name of a gentleman here in Los Angeles that he thought might have some information.

In any event, we left very clear instructions with Mr. Atkinson as to how to get in touch with either one of us should he have any information as to Dr. Matthew's whereabouts so that he could contact us so we could discuss with him this acquisition. He did not contact me and I understand he did not contact Mr. Goehler either.

Now, I have received a couple of phone calls; one from Washington concerning what we were doing in connection with this, and some letters from the Board of Supervisors concerning what we were doing.

At this point, I feel that we have reached a stalemate as far as any negotiations with the present ownership, and it was my understanding that the previous Board action was approval for acquisition, so it is my recommendation at this time that, since there has been no response at all to both written and direct communications with this corporation, we instruct the General Counsel to start whatever legal actions are necessary for condemnation."

After a full discussion, on motion of Director Neusom, seconded and unanimously carried, the following resolution was adopted:

RESOLUTION NO. R-70-224

WHEREAS, the District is interested in improving the bus service in the South Los Angeles area; and

WHEREAS, the residents of the South Los Angeles area are now required to pay fares to more than one transportation company in a large percentage of the passenger rides; and

WHEREAS, the acquisition by the District of the Blue & White Bus Company of Watts now operating in the South Los Angeles area can bring about improved public transportation at a reduced cost to the residents in a substantial number of travel trips; and

WHEREAS, this Board of Directors has been informed concerning the unsuccessful efforts to voluntarily negotiate with the owner of the Blue & White Bus Company concerning its purchase;

NOW, THEREFORE, BE IT RESOLVED, that the District by registered mail notify Dr. Thomas J. Matthew of 175 - 10 - 88th Avenue, Jamaica, New York, New York, the owner of the Blue & White Bus Company of Watts, that the District has heretofore sought to arrange a meeting between the District, Dr. Matthew and his representatives to negotiate in regard to the purchase of the Blue & White Bus Company;

FURTHER RESOLVED, that efforts to negotiate the purchase of the Blue & White Bus Company of Watts be continued, and that the General Manager and the General Counsel prepare information required by this Board of Directors to consider an action to acquire the personal property used in the operation of the Blue & White Bus Company of Watts by the exercise of eminent domain inasmuch as, if negotiations fail, it may be necessary to take such action as a last resort;

RESOLVED FURTHER, that no final filing of an action in condemnation be made without the prior approval of this Board of Directors.

Report of Chairman of Public Information & Marketing
Committee

Director Macke, Chairman of the Public Information & Marketing Committee, reported that the Committee met on September 11, 1970 and considered five items, one of which was the awarding of the bid on the production costs of the silkscreen exterior bus signs approved at this meeting.

Another item was a report from Mr. Goehler who will be asked to report on the activities of the District at the Ontario "500" on Sunday, September 6th.

The other item also submitted by Mr. Goehler was consideration of an increase in the price of the monthly passes, which was referred to the Surface Operations Committee for additional study.

Report of George F. Goehler, Assistant General Manager for
Operations - California "500" at Ontario Motor Speed-
way on Sunday, September 6, 1970

At the request of Director Macke, Mr. Goehler reported on the results of the District's services to the Ontario Motor Speedway on Sunday, September 6th, as follows:

"It is indeed a pleasure to be able to make this report. This was to the Ontario Speedway on Sunday, the 6th. We had some apprehensions with respect to the traffic problems and the ability to get buses in and out. We carried 9,600 one-way passengers. We operated direct service from RTD downtown station and also ran a shuttle operation from the Ontario Airport to the Track.

Incidentally, the top officials from Indianapolis, including the Governor of Indiana and the Mayor of Indianapolis, were very pleased with the service. We had over 120 top race track officials who decided that public transportation was the way

"to go to a race track. And we carried them, and we got nothing but compliments.

I would like to emphasize not only the job that the operations people did, but also the job that the Public Information Department did in getting the message across to the people. The local newspapers did a tremendous job, and we were able to get the return coupons and our checks from passengers who wished to ride in advance so that we could schedule the proper amount of service, and I would say that we had better than 90% of our tickets pre-sold for this event, plus the premium fare that we added. We were able to do an excellent job and we did have a successful operation.

I must also pay compliments to the California Highway Patrol and the people who handled traffic. While they SNAFUED us to some extent in our operations from the Ontario Airport, the general handling of all this by the law enforcement officers who were involved in this, I think, did a fantastic job.

We had our last bus cleared out of there after the break-up within four hours and we were also able to double trip a number of buses from El Monte back, and from the Airport we were making four or five trips back and forth. The handling of this was excellent, but I think the key to an operation of this type is the getting of the ads across as the Public Information did so that we can presell this service and then we will know exactly how many buses we will need."

Director Macke thereupon moved

That the Public Information and the Operating Departments be commended for an outstanding job, and that appropriate letters of thanks be sent to the agencies that helped the District in coordinating the effort,

which motion was seconded and unanimously carried.

McKay, Milton - Appointment as General Manager Pro Tempore
