

RESOLUTION

by the Metro San Fernando Valley Service Council

WHEREAS, the Interstate 405 (San Diego) Freeway will be closed over the weekend of July 16th and 17th as part of Metro's Sepulveda Pass HOV Lane construction project; and

WHEREAS, the Metro Board of Directors has authorized the fare-free operation of the Red Line subway and the Orange Line busway during that weekend to give inconvenienced motorists an option to driving between the San Fernando Valley and the Westside, and further authorized CEO Art Leahy to determine what other Metro service should also operate fare-free on that weekend; and

WHEREAS, even if motorists utilize park-ride lots in the Valley to access the Orange and Red Lines, they will still be charged a fare when they transfer from the Red Line south of the Santa Monica Mountains to local bus service in order to travel to the Westside, and beginning a trip on the south side of the mountains will also require fare payment on local bus service in order to access the Red Line (and also to connect from the Orange Line to local bus service); and

WHEREAS, many will "blame" Metro for the inconvenience caused by the freeway closure, putting our best foot forward toward these displaced motorists is in the agency's best interest;

THEREFORE, we urge the CEO to extend fare-free operation on the weekend of July 16th and 17th to those Metro local and Rapid bus lines which connect to the Red and Orange Lines in the Valley, to those which connect the Red Line with the Westside, and Rapid Line 761 between Sherman Oaks and Westwood. (See Attachment A.)

RESOLVED, this 6th day of July, 2011.
