

North Hollywood Station Underpass Project

Fact Sheet

PROJECT: MTA North Hollywood Station Underpass

LOCATION: Metro Orange Line Depot / North Hollywood Red Line Station

CONSTRUCTION START DATE: July, 2014

PROJECTED COMPLETION DATE: Spring, 2016

PROJECT DURATION: Approximately Two (2) years

PROJECT DESCRIPTION:

Located at the intersection of Lankershim Blvd and N. Chandler Blvd. the underpass will provide safe & convenient pedestrian access in the area surrounding the Metro Red Line Station and Metro Orange Line Depot.

- Facilitates easy and convenient access to pedestrians interchanging between Metro Red Line Station and Metro Orange Line Depot.
- The underpass structures will be constructed between the Mezzanine level Metro Red Line Station and Plaza level at Metro Orange Line Depot.
- The underpass will be located underneath Lankershim Blvd. and Metro property at Orange Line Depot.
- For safety reasons, pedestrian traffic will be deterred from crossing Lankershim and minimize street crossings at the intersection of N. Chandler Blvd and Lankershim Blvd.
- Escalator, stair and elevator access from both ends of the underpass
- Underpass will conform to ADA standards.
- Additional Ticket Vending Machines (TVMs) provided for the convenience of the commuters.
- Enhanced lighting and ventilation along the entire length of underpass.
- Added traffic congestion relief.
