REGIONAL SERVICE COUNCILS

April 2016

SUBJECT: QUARTERLY STATION CLEANLINESS EVALUATION

ACTION: RECEIVE AND FILE

ISSUE: STATION CLEANLINESS RATINGS

The purpose of this report is to present the FY16 Q3 station cleanliness ratings for 27 station sites throughout Los Angeles County. One new station was added to this evaluation, Long Beach Boulevard Green Line Station. Once the Foothill and Expo Line extensions are opened, additional stations will be added beginning in Fiscal Year '17. This evaluation is accomplished using 33 measures of performance to evaluate the cleanliness of the stations surveyed. Each survey evaluation of a station is a “snapshot” in time. The station evaluations were conducted beginning January 2016 through February 2016. Significant findings or hazards are reported to Facilities Maintenance immediately. Station ratings fall into three measurement ranges:

1. Good to Very Good – Little or no damage, trash, graffiti, etc. noted (Score 8 -10)
2. Marginal – Some damage, trash, graffiti, etc. noted (4 -7)
3. Unsatisfactory – Heavy or noticeable damage, trash, graffiti, etc. noted (0-3)

Each station is scored separately. Ratings are performed by Metro staff to maintain consistency of grading. Beginning this quarter, the Long Beach Boulevard Green Line Station was added. This station is scored separately and statistics are provided by an independent reviewer. The ratings for each of the elements are summarized in Table 1. The table also includes the FY15 Q4, FY16 Q1 and, FY16 Q2 scores for comparison. Metro weekday passenger activity for January 2016 is shown for each surveyed station.

DISCUSSION

Thirty-three measures of performance are used to evaluate each station on a quarterly basis. Their average score determines their overall quarterly rating. Each station’s current quarterly score is compared to its previous quarterly score to determine if the score improved, decreased, or remained the same. A variance in scores may or may not change the overall rating of a station. For example, a station that scored 9.0 in the previous quarter and then scores 8.5 in the following quarter will still be considered “Good to Very Good” even though it experienced a score decrease. Station conditions between FY16 Q2 and FY16 Q3 show no change in the total Average Score. The summary of staff’s findings is as follows:

27 stations were evaluated:

- a. 25 of 27 stations rated “Good to Very Good.”
- b. 7 out of 27 stations evaluated scores showed “Improved” performance.

- c. 15 out of 27 stations evaluated scores showed “No Change” performance.
- d. 4 out of 27 station scores experienced a *minor* score decrease due to changes in one or more of the 33 measures of performance evaluated. Station ratings remained in the “Good to Very Good” category. Stations showing a decrease in score are:
 - Cal State LA Bus Station (8.4 to 8.3) – broken concrete bench
 - Culver City Expo Station (9.4 to 9.1) – increased pigeon presence and accumulation of debris in parking area
 - Mariachi Plaza Gold Line Station (9.2 to 9.0) – station showed light trash accumulation
 - Willowbrook-Rosa Parks Station (8.7 to 8.5) – dirty elevators, some graffiti
- e. 2 out of 27 stations rated in the “Marginal” category.
 - Long Beach Boulevard Green Line Station (7.6) – damaged metal fence at park & ride lot, car vandalism and graffiti at station parking lot and trash throughout parts of the station. The parking lot is owned by Caltrans. Findings were reported to Caltrans for response.
 - Harbor Green Line Station (7.0) – increased trash, graffiti, exposed irrigation pipes at park & ride. The parking lot is owned by Caltrans. Findings were reported to Caltrans for response.

Overall the current condition of the stations evaluated is “Good to Very Good” with no change in the total Average Score (8.9 to 8.9) for each of the last two quarters.

NEXT STEPS

Staff will continue to conduct station evaluations and report their quarterly findings to both Metro Facilities Maintenance Management and Metro Service Councils. All Service Council members will be notified and given the opportunity to accompany staff when conducting station evaluations.
