Performance Report on
April 2013 Service

WSC Service Council June 2013 Meeting

When is a Bus On-Time, and How is it Measured?

Less than 1 minute ahead of schedule, and

Less than 5 minutes behind schedule

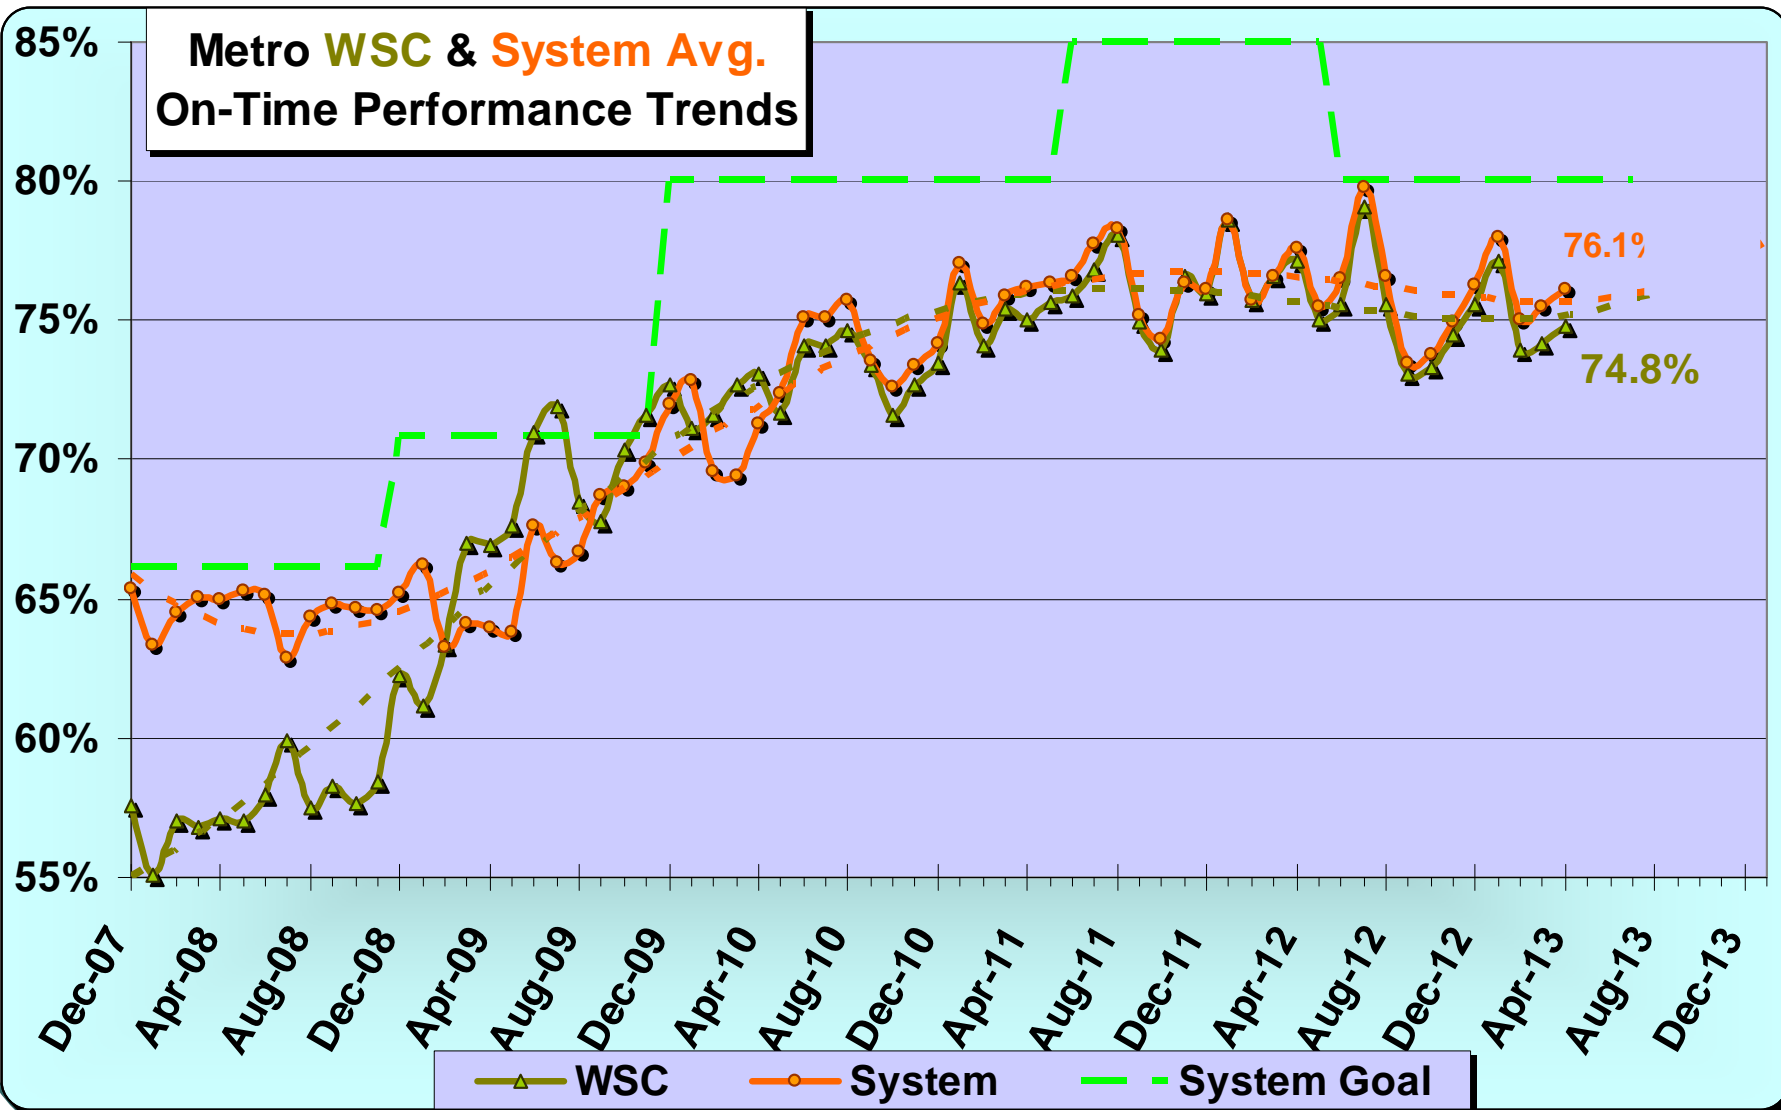

At a Time Point along the route

Every bus line has time points that are mostly 10 to 20 minutes apart

Each bus is equipped with GPS Tracking System included in ATMS (Automated Transit Monitoring System)

Each month ATMS records over one half million bus time points
